What can I do on the Member portal and app?

The MaxorPlus member portal and app allow you to refill prescriptions, review and print your prescription history, manage dependent prescriptions, and look-up the estimated cost of a drug.

These are three key features to help you day-to-day:

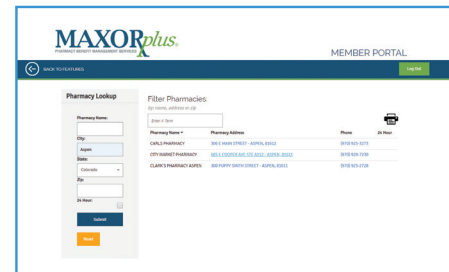

Message Center

The Message Center is your secure, direct connection to Member Advocates about your benefits and prescriptions. Send messages about order status or ask questions about your account. Our Member Advocates will respond within hours.

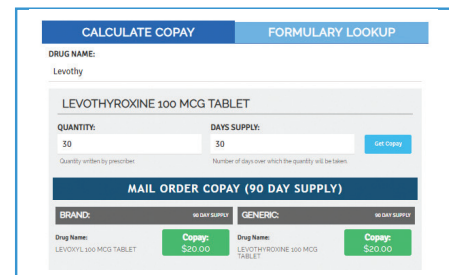

Pharmacy Locator

If you're on the road or just need to find out if your favorite pharmacy is in network, use the Pharmacy Locator. It's integrated w/ Google Maps, so you can get directions and call the pharmacy directly from the Member app.

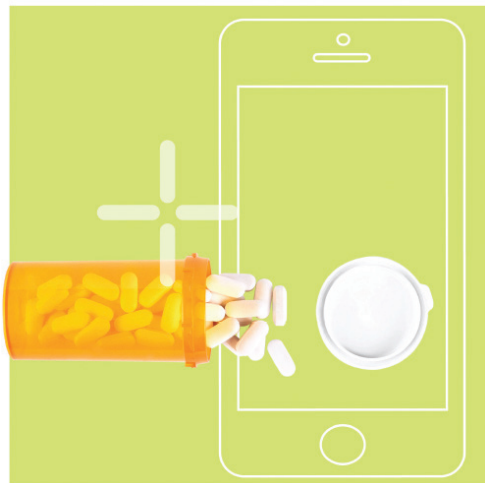

Calculate my Co-Pay (or Cost)

Our co-pay (cost) calculator helps you determine the cheapest method or location for your prescriptions. Enter the medication name, and the co-pay calculator brings back the brand and generic equivalents as well as mail order and retail pricing. The calculator runs test claims at the top 35 pharmacies within your specified radius, and it takes your plan information into account (such as deductible contributes for HDHP plans).

What is the difference between the app and web portal? Where can I download the app?

They both have the same features, and the app has special phone enhancements such as the ability to log in using facial or touch recognition and camera integration for quick fills.

The app is available on the Apple App Store and Google Play store for free. Simply download, register, and go. If you've previously registered your account, log in with your web credentials.
